## PROMOTEGH゚

## PRO-72 2 two-speed drilling Machine

PRO-72 is a powerful 2-speed mag drill enabling milling capacity up to $70 \mathrm{~mm}\left(2-3 / 4^{\prime \prime}\right)$ and drilling up to $25 \mathrm{~mm}(1$ "). Thanks to innovative lightweight smart magnet PRO-72 weighs only $18,0 \mathrm{~kg}$ ( 40 lbs ).
Its rigid design extends tool life and semi-automatic gib adjustment enables simple, fast and correct operation to be done in a few easy steps.
PRO-72 provides maximum holding power on thin materials thanks to Magnetic Field Shape Control (MFSC).
The drill protects both the machine and the operator from work on too thin workpiece by means of Magnetic Power Adhesion Control (MPAC).
PRO-72 is also equipped with Energy Saving Base (ESB) that uses only $50 \%$ of its power when motor is not running.

## Features and benefits:

- powerful motor with heavy duty 2-speed gearbox
- milling with TCT or HSS cutters or drilling
- rigid design extends tool life
- innovative smart magnet with reduced weight
- Magnetic Field Shape Control (MFSC) provides maximum holding power on thin materials
- Magnetic Power Adhesion Control (MPAC) detects adhesive force of electromagnetic base and protects both the machine and the operator from work on too thin workpiece
- Energy Saving Base (ESB) uses only 50\% of its power when motor is not running
- The motor stops automatically when the brushes are worn out lit is necessary to replace the brushes to restart the motor)
- semi-automatic gib adjustment
- lightweight design
