DMP-252

DRILLING ATTACHMENT FOR PIPES
OD 32 MM TO 252 MM

DMP-502

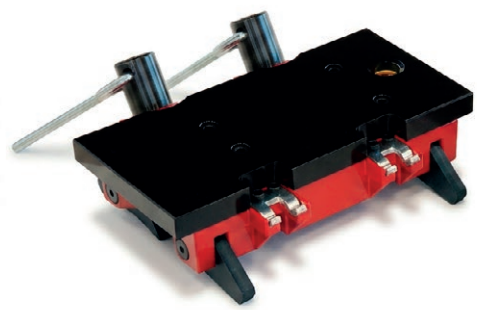
DRILLING ATTACHMENT FOR PIPES
OD 32 MM TO 502 MM (EXTENDED)

The DMP-252 and DMP-502 are lightweight and useful attachments that allow mag drills to cut holes in pipes, tubes and other cylindrical or oval workpieces that can be secured with clamping chains.

The upper steel plate of the attachment ensures a secure connection to the drilling machine, utilising the magnetic force generated by the drill's base.

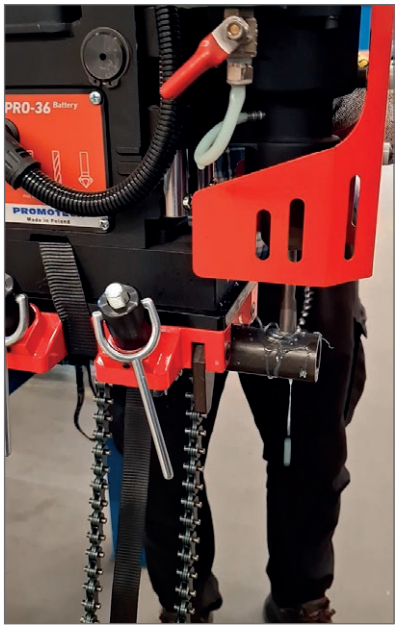
The length of the clamping chains can be adjusted to provide a firm and stable grip on pipes with outer diameters ranging from 32 mm to 252 mm (DMP-252) or 32 mm to 502 mm (DMP-502).

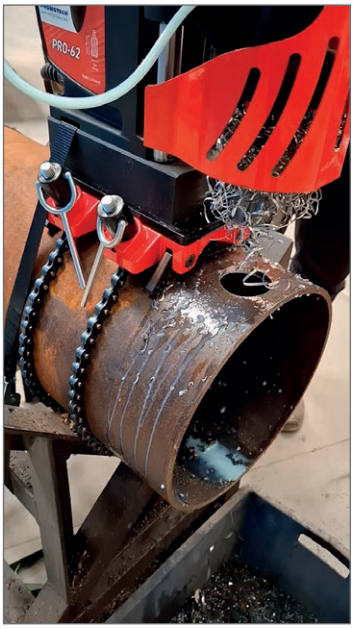
The DMP-252 is recommended for use with compact and medium-sized mag drills, while the DMP-502 is designed for larger drilling machines.



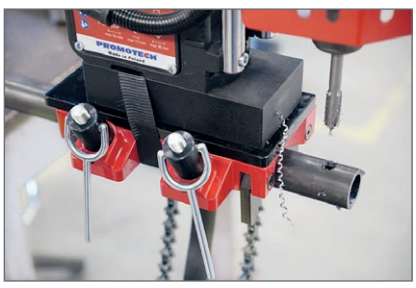
Features & benefits:

- lightweight and handy solution that expands the range of applications for mag drills
- easy to clamp onto pipes
- built-in level device enables correct positioning of the mag drills





Model	DMP-252	DMP-502
Upper plate dimensions (L x W x H)	210 x 103 x 10 mm	220 x 110 x 15 mm
Clamping chain	120 cm super strong chain (2 pcs included) weight: 0,85 kg / 1 pc	200 cm super strong chain (2 pcs included) weight: 1,4 kg / 1 pc
Range of pipe diameters	Min. 32 mm | Max. 252 mm	Min. 32 mm | Max. 502 mm
Mag drills suitable for use	PRO-36 PRO-36 Battery PRO-40 PRO-50 PRO-55 PRO-62 PRO-52T PRO-72, PRO-72T	PRO-36 PRO-36 Battery PRO-40 PRO-50 PRO-55 PRO-62 PRO-52T PRO-72, PRO-72T PRO-102 PRO-122T PRO-122T SB
Weight (w/o chains)	3.3 kg	4.4 kg
Product code	PDS-000105	PDS-000106



The minimum pipe diameter for both DMP-252 and DMP-502 is 32 mm

The maximum pipe diameter for DMP-502 is 502 mm

Built-in level device enables correct positioning of the mag drills
